

Raising the Standard Taking your craft to a whole new level

Our newly designed aluminum PWC lifts are built for it all. The vertical lift design can handle deeper water and your largest of craft—up to 5' 6" deep and 1500 lbs! Plus, it keeps your craft safe, high above waves with a lift height of 56"; so it's perfect for fluctuating water.

PROVEN DESIGN & CONSTRUCTION

Count on years of dependable service with ShoreStation's time-tested vertical lift system and durable, low maintenance aluminum construction. Same great quality as our larger lifts.

DESIGNED FOR LARGER CRAFTS

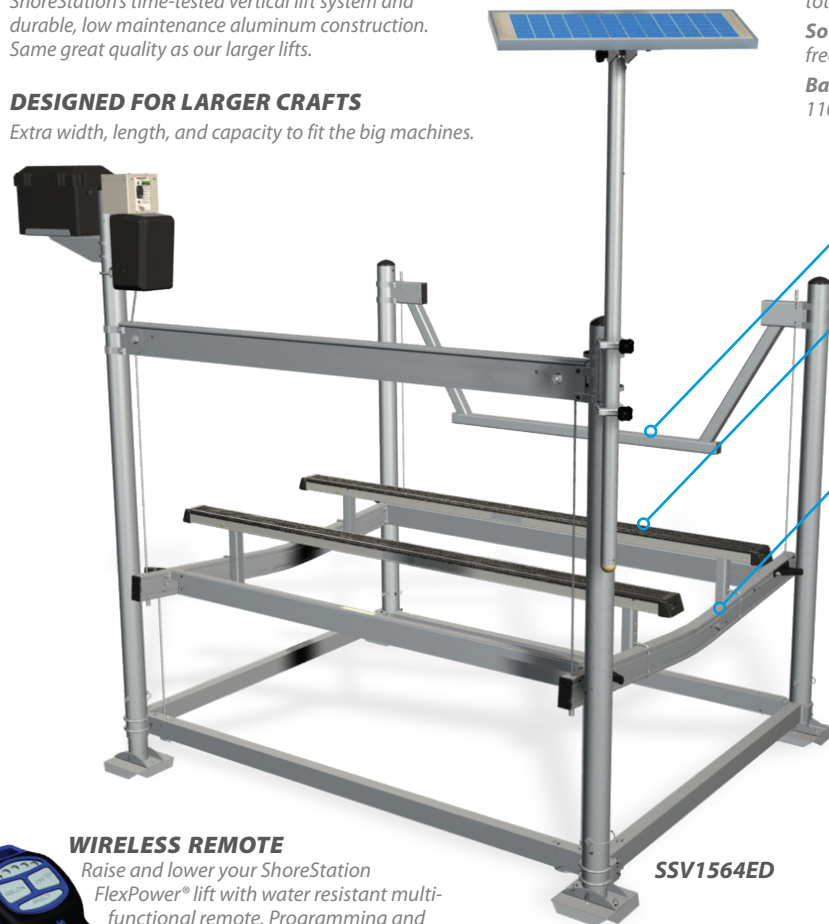

Extra width, length, and capacity to fit the big machines.

POWERFUL FLEXPOWER® SYSTEM

Safe, reliable, powerful DC operating system. Choose from our totally automatic charging systems:

Solar - Eliminate the need for electricity on the dock with safe, free, solar power.

Battery Tender - Charges and maintains your battery using 110V AC power.

SSV1564ED

DROP SIDE

Comes standard for easy access.

PIVOTING BUNKS

These self-adjusting bunks pivot to cradle the watercraft's hull, providing better support and evenly distributed weight. In your choice of carpeted wood or aluminum/poly UltraBunks.

"V" CRADLE DESIGN

For shallow water operation.

SSV1564M

WIRELESS REMOTE

Raise and lower your ShoreStation FlexPower® lift with water resistant multi-functional remote. Programming and operation all in one unit! Comes standard with 2 remote transmitters.
